COMMUNICATION REGARDING
PATENT TERM ADJUSTMENT

Sir:

The applicants received a Notice of Allowance dated February 9, 2009, in the above-identified patent application. The determination of Patent Term Adjustment (PTA) Under 35 U.S.C. 154(b) indicates that the patent for this application would be eligible for 0 days of patent term adjustment. For the record, applicants concur with the Patent Office determination that this patent is not entitled to any days of PTA.

However, a review of the PAIR record shows an apparent 118-day Patent Office delay ending June 26, 2008. The delay appears to be pursuant to 37 CFR §1.703(a)(3) (failure to take certain actions within specified time frames). Applicants believe this is an error in the record.

On October 31, 2007, applicants filed, via the Electronic Filing System (EFS), a Request for Continued Examination (RCE) that included a request for suspension of action for 3 months. (A

copy of the RCE filed on October 31, 2007 is attached for reference.) The suspension of action expired on January 31, 2008. Therefore, the next examiner's response was not due until after May 31, 2008. Accordingly, a non-final rejection was mailed on June 26, 2008, which should have constituted only 25 days of Patent Office delay.

Applicants believe that this correction to the record will not alter the current Determination of Patent Term Adjustment. However, applicants respectfully request that the PAIR record be reviewed and corrected to ensure that the determination of any future PTA is correctly indicated on the granted patent.

Applicants do not believe there should be a fee associated with this Communication. But, the Commissioner is hereby authorized to charge any fees under 37 CFR §§1.16 or 1.17 that may be required by this paper to Deposit Account No. 19-0065.

Respectfully submitted,
